CREATING VALUE THROUGH VISION ZERO

BY

ODEBUNMI, DOMINGA

MSc, FISPON, Principal consultant SAFETYPLUS

safetyplus

'preventing banana skin situations'

Value to a lay-man can be define as:

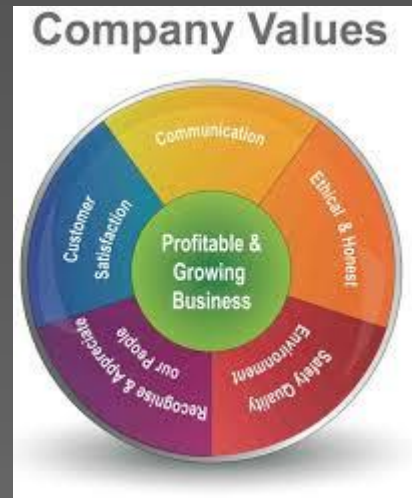

- ◉ Giving importance to something
- ◉ A person's principle or standard of behaviour

safetyplus

'preventing banana skin situations'

Every
organisation
has a value
system

safetyplus

'preventing banana skin situations'

Vision Zero

- A prevention culture to accidents and injuries
- Is aimed at zero accident everywhere
- It is data-driven

safetyplus

'preventing banana skin situations'

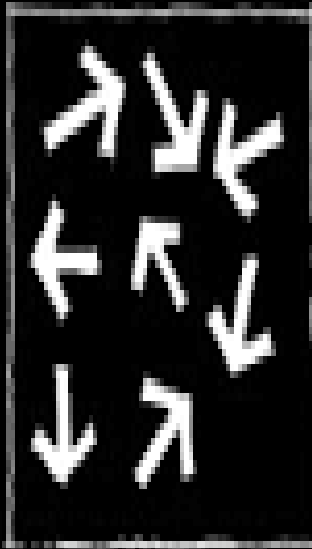

- It is outcome driven
- Zero-tolerance
- It is not fault finding
- It is collaborative across agencies, organization and departments

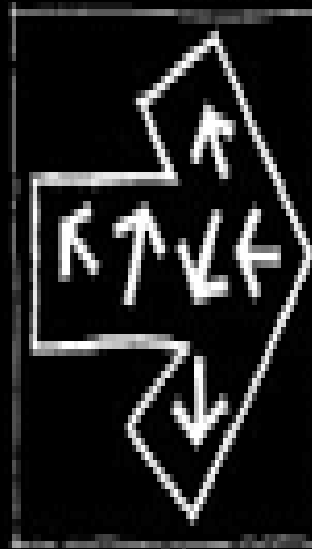

safetyplus

'preventing banana skin situations'

No Vision

Imposed
Vision

Shared Vision

Traditional thinking

Vision Zero

Focus on accidents

Focus on fatalities and serious injuries

Perfect human behavior

Integrate the failing human in design

Individual responsibility

Shared responsibility between system and design

Industry must be forced

Industry can be stimulated

Saving lives is expensive

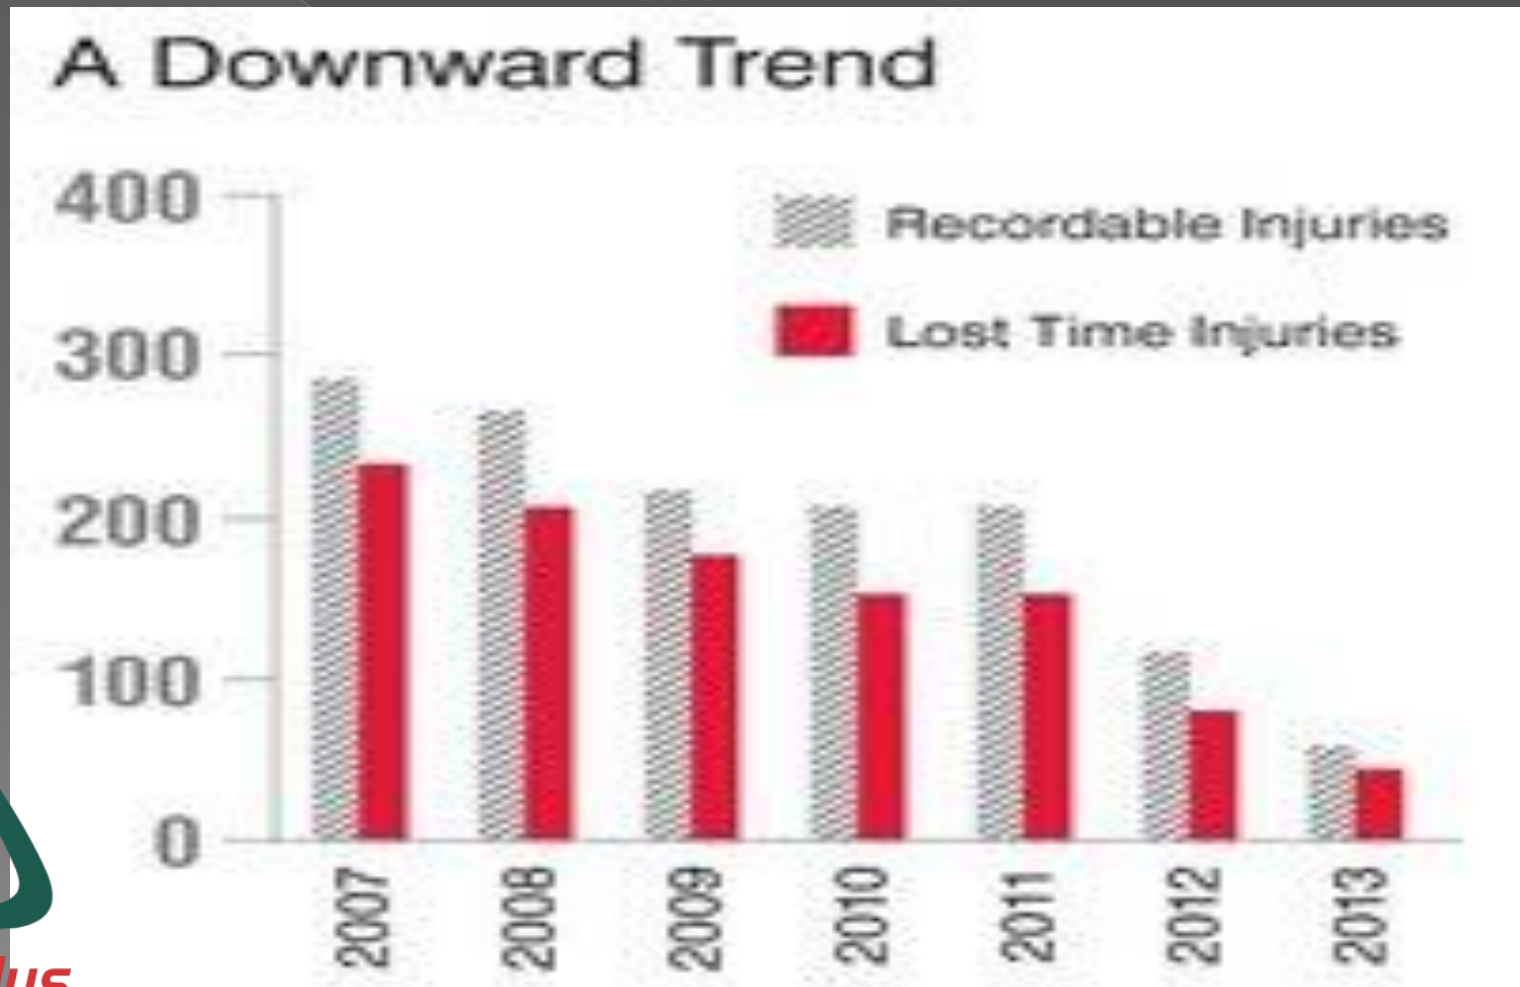

saving lives is cheap

safetyplus

'preventing banana skin situations'

The down trend of accident through health and safety

Four principles of Vision Zero is based on:

- ◉ Ethics
- ◉ Responsibility
- ◉ Safety
- ◉ Mechanisms for change

Vision Zero Fundamental Principles

safetyplus

'preventing banana skin situations'

Is Vision Zero a realistic approach?

safetyplus

'preventing banana skin situations'

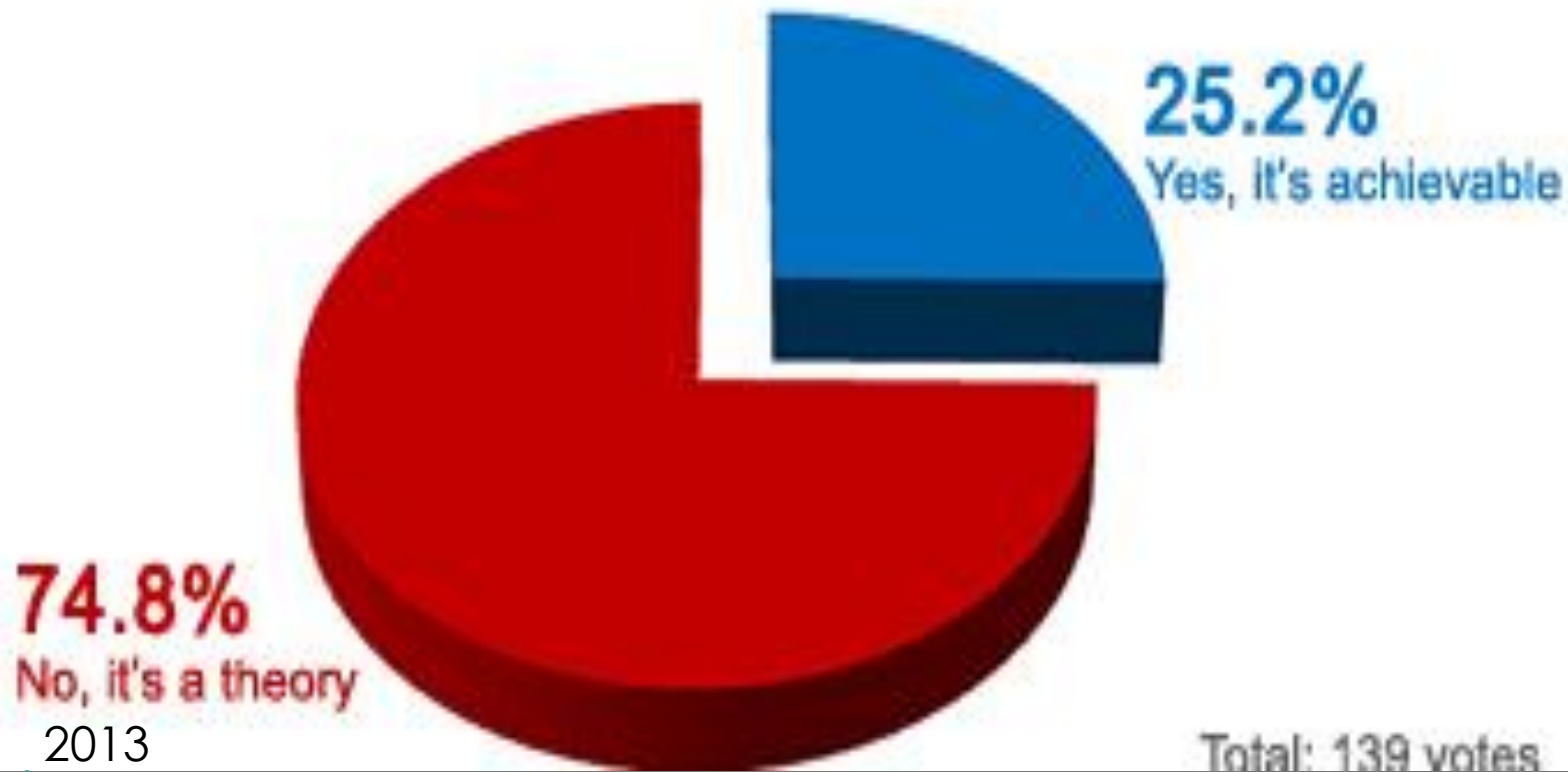

There are of course some critics on Vision Zero. Some say it is impossible to attain, due to the inherent risks in the nature of the industry and work. Some say it is too ambitious and will cause us to become disheartened and disillusioned when we see ourselves failing to meet the goal year after year. Others say it will discourage the reporting of injuries in order to keep up a false appearance of zero injuries.

safetyplus

preventing banana skin situations

Do you believe Zero Harm is achievable or simply theoretical?

safetyplus

'preventing banana skin situations'

Achieving Vision Zero

- ◉ Implementation of various changes through strong legislative requirements,
- ◉ Infrastructure improvements
- ◉ Technological improvements

safetyplus

'preventing banana skin situations'

VISION ZERO IN NIGERIA

- Many organisation have implement the Factory Act into their system
- Health & Safety has become a value to them
- Vision Zero is a global focus
- It is practicable in Nigeria

safetyplus

'preventing banana skin situations'

CHALLENGES OF VISION ZERO IN NIGERIA

- ◉ Delay in implementation of legislation
- ◉ Inadequate knowledge in the technology: illiteracy imbalance
- ◉ Behavioural attitude of human to changes in culture
- ◉ Poor infrastructure and disjointed management

WAYS OF OVERCOMING CHALLENGES

- ◉ Effectively implementing policy & legislation
- ◉ Changing organisational practices
- ◉ Fostering coalitions & networks
- ◉ Intensive enlightenment
- ◉ Educating providers
- ◉ Strengthening individual knowledge & skills

safetyplus

'preventing banana skin situations'

Vision Zero as a value

Safety Must Be a Value – Not Just a Priority
